

ENSURING SAFETY ENHANCING SERVICE

AI display recorder

S1 is a 10.1 inch HD intelligent display screen with built-in MDVR, 4G module, GPS positioning module and AI algorithm, supports 4-channel video, built-in ADAS, BMS, BSD function, supports touch control, voice prompt and intercom, supports remote monitoring platform, stable and reliable. It is an intelligent device suitable for the driving safety management of large commercial vehicles, and provides cost-effective solutions for users of logistics trucks, buses, hazmat trucks and other scenarios.

PRODUCT SPECIFICATION

Configuration	Specification
System	Linux operation system
Working voltage	9-36V input, extra design for Low Voltage/Short Circuit/Reverse Protection
Display/resolution	10.1 inch 1280*800
Display voice control	Switch on and off the screen:View all, front video, rear video, left video, right video;
Cam extension	4xIP Camera
4G communication	GSM/WCDMA/LTE-FDD/LTE-TDD
GNSS	GPS/GLONASS/BDS/GALILEO
SIM	Embedded eSIM, support SIM card slot
Storage	Support 1 TF card, max 512G
Alarm	Support 3 input I/O signal
Display	1080P/720P/D1/HD1/CIF, Support 1, 2 and 4 screen displays
Speaker	Embedded 2W
MIC	Embedded microphone
Extensibility	Support 1*RS485 (Alarm/fuel level sensor/load sensor/thermal sensor etc.)
AI algorithm	ADAS、DSM、Face Recognition、Blind Spot Pedestrian Detection
Software function	1,support mainstream protocol and fleet management platform 2.Video streaming, record/playback of videos, location tracking, voice intercom. 3,Remote operation and maintenance,support OTA upgrade,remote fault diagnosis.
Dimension	Dimension:256mm*158mm*42mm

APPLICATIONS

● TRUCKING BUSINESS

CHALLENGE	SOLUTION	BENEFIT
<ul style="list-style-type: none"> Truck dispatch efficiency issue Blind Spot issue Pedestrian safety Fatigue driving Cargo safety Wrong delivey 	<p>Remote management platform</p> <p>S1 AI Display</p> <p>DMS</p> <p>ADAS</p> <p>Light & Sound Alarm</p> <p>Rear Cam</p> <p>BSD</p> <p>S1+ADAS+DMS+BSD+RearCam+ Alrm +remote mangement platform</p>	<ul style="list-style-type: none"> ✓ ADAS/DMS improve driving safety ✓ Pedestrian protected ✓ Real time vision easier for driver ✓ Optimize transportation operation ✓ Lower TCO, higher satisfaction ✓ Better safety and reputation
